PERFORATOR

PERFORATOR

Areas of application:

Individually for

- Sorting shaft
- Bale pressing shaft
- Press container
- Stationary

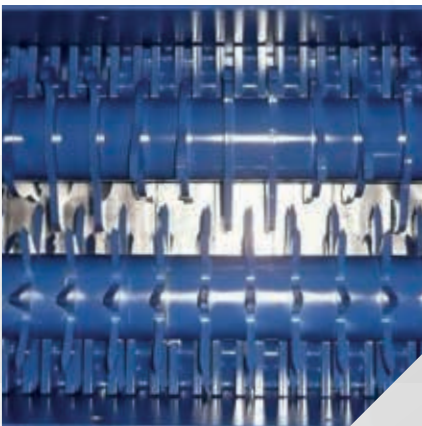

Advantages:

PET bottles can be efficiently and economically perforated/pierced with perforators made by Wagner and ensure highly compact bales.

The machines can be equipped with a customer-specific control system, hopper and base frame.

Features:

- **The slitting tools**
Made of Hardox
Can be sharpened
In various shapes
Individually installed
- **Drive**
European high-quality drive with a high operating factor
Mounted flexibly
- **Housing**
Segment design
Bolted, therefore fast and easy tool replacement
- **Bearing**
Proven and robust
Bearings are free-running, therefore resistant to dust and contamination

Model	Length (mm)	Width (mm)	Height (mm)	Drive power (kW)	Weight approx. (kg)
Perforator 10	1360	610	300	2,2	325
Perforator 16-2	1732	675	350	5,5	450
Perforator 32-2	1732	1350	350	2 x 5,5	940
